PROFILE

Final-year Software Engineering student who builds full-stack web apps with React, Node.js, Express and MongoDB. Experienced in secure REST APIs, JWT authentication and database design. Looking for an internship or junior software engineering role.

PROJECTS

FinTech Digital Wallet & Payment Platform

React.js · Node.js · Express.js · MongoDB Atlas · Tailwind CSS

- Built a full-stack app that simulates peer-to-peer money transfers, balance management and account statements.
- Implemented stateless JWT authentication with bcrypt password hashing.
- Designed MongoDB schemas for users, accounts and transaction ledgers to keep balances consistent.
- Built a React dashboard with filtering, pagination and error boundaries.

Campus Central: University Academic & Resource Hub

React.js · Node.js · Express.js · REST APIs · MongoDB

- Built a portal where students find academic materials, coordinate study halls and collaborate across departments.
- Created Express REST endpoints with input validation, sanitization and structured error responses.
- Added database indexes to speed up common queries.
- Designed a mobile-first, accessible interface.

Developer Portfolio Website

React.js · Tailwind CSS · Node.js · Express · MongoDB Atlas

- Built a responsive portfolio with dark/light theme and a mobile navigation drawer.
- Added QR code generation to open the site on mobile from desktop.
- Built an Express contact API that stores visitor messages in MongoDB Atlas.

SKILLS

FRONTEND

React.js · JavaScript ES6+ · HTML5 · CSS3 · Tailwind CSS · Vite

BACKEND

Node.js · Express.js · REST APIs · JWT · bcrypt · Middleware

DATABASE

MongoDB · MongoDB Atlas · Mongoose · MySQL · Indexing

TOOLS

Git · GitHub · Postman · VS Code · npm · Vercel · Render

FOUNDATIONS

- Object-Oriented Programming
- Data Structures & Algorithms
- MVC Pattern
- Agile / Scrum

EDUCATION

BSc in Software Engineering

Expected graduation: 2026

Coursework: Advanced Web Architectures, Database Management Systems, Software Design Patterns, Operating Systems, Distributed Computing, Algorithms and Complexity.

Recognized for technical execution in university software design exhibitions.
